

# HTTP5101 Debugging Chart

The purpose of this chart is to reflect on problems and the strategies taken to resolve them. If you find an assignment particularly difficult, you may fill out this chart and submit it with your assignment.

If you receive below a 60% on a submitted assignment, a comprehensive debugging chart may bring that mark up to 60%.

Name	
Student Number	
Section	
Briefly describe the problem that you've encountered.	
Are you able to consistently replicate this problem?	
Do you suspect where in your code this problem happens?	
How can you confirm that the problem occurs where you believe it does?	
What research have you done to investigate similar problems?	
What else did you try to solve the problem?
